

TANEXPO will be held in Bologna from 13 to 15 May 2021

TANEXPO organization announces the reschedule of the event with respect to the previously set dates.

The persistence of the current pandemic situation has led TANEXPO show management to discuss with the exhibiting companies the possibility of postponing the event to late spring, as urged by some firms.

Almost all companies were in favor of running TANEXPO in May, due to the fear that in February there may not yet be the conditions to allow professionals' participation, not only due to health emergency, but also to the rules regulating the free movement of people across countries.

The decision to reschedule the event in May has been shared with all exhibitors, hoping that by then better conditions will be achieved in order to ensure an event at the height of traditional quality standards.

Therefore, in close collaboration with BolognaFiere to find available dates in the Exhibition Center schedule and having considered the international trade events calendar, the new dates for TANEXPO have been defined.

The trade show is scheduled on **May 13.14.15, 2021** - Thursday, Friday, Saturday - in Bologna (Italy).

As always, the exhibition will take place in Halls 16 | 21 | 22 in BolognaFiere exhibition center. Visitors will access the venue from North and Costituzione entrances. TANEXPO and BolognaFiere are working together to ensure the tradeshow will be carried out in a safe environment.

We would like to thank our partners and visitors for their understanding, especially all TANEXPO Exhibitors for keeping supporting our organization as a united front, even in this difficult time.
